**Category of change:** Discontinuation of product

**Current State:** The MACS GMP Aspergillus fumigatus lysate is manufactured by Miltenyi Biotec and can be ordered by customers.

**Planned change:** The MACS GMP Aspergillus fumigatus lysate will be discontinued.

**Justification/Evaluation:** The MACS GMP Aspergillus fumigatus lysate will be discontinued due to low market demand.

The phase out is performed gradually and based on a planned and controlled stop of sales and support activities.

There is no change of raw material, manufacturing process or product specifications. Until discontinuation, no impact on the performance, quality, and safety of the affected products could be identified.

**Estimated Implementation:** Q4/2021

Please share, if applicable, this information with relevant staff in your organization.
