

Vector Details:

nt 4406 (ClaI) to nt 434:
nt 467 to nt 1833:
nt 1906 to nt 2148:
nt 2149 to nt 4406 (ClaI):

SV40 early promoter/enhancer, origin of replication, splice donor/splice acceptor site.
Human CD14 cDNA.
SV40 polyadenylation site.
pUC backbone: bacterial origin of replication and Ampicillin resistance gene.

MACS00101

Note: This map shows known restriction sites.
