

### Vector Details:

nt 4406 (ClaI) to nt 434:

SV40 early promoter/enhancer, origin of replication, splice donor/splice acceptor site.

nt 467 to nt 1833:

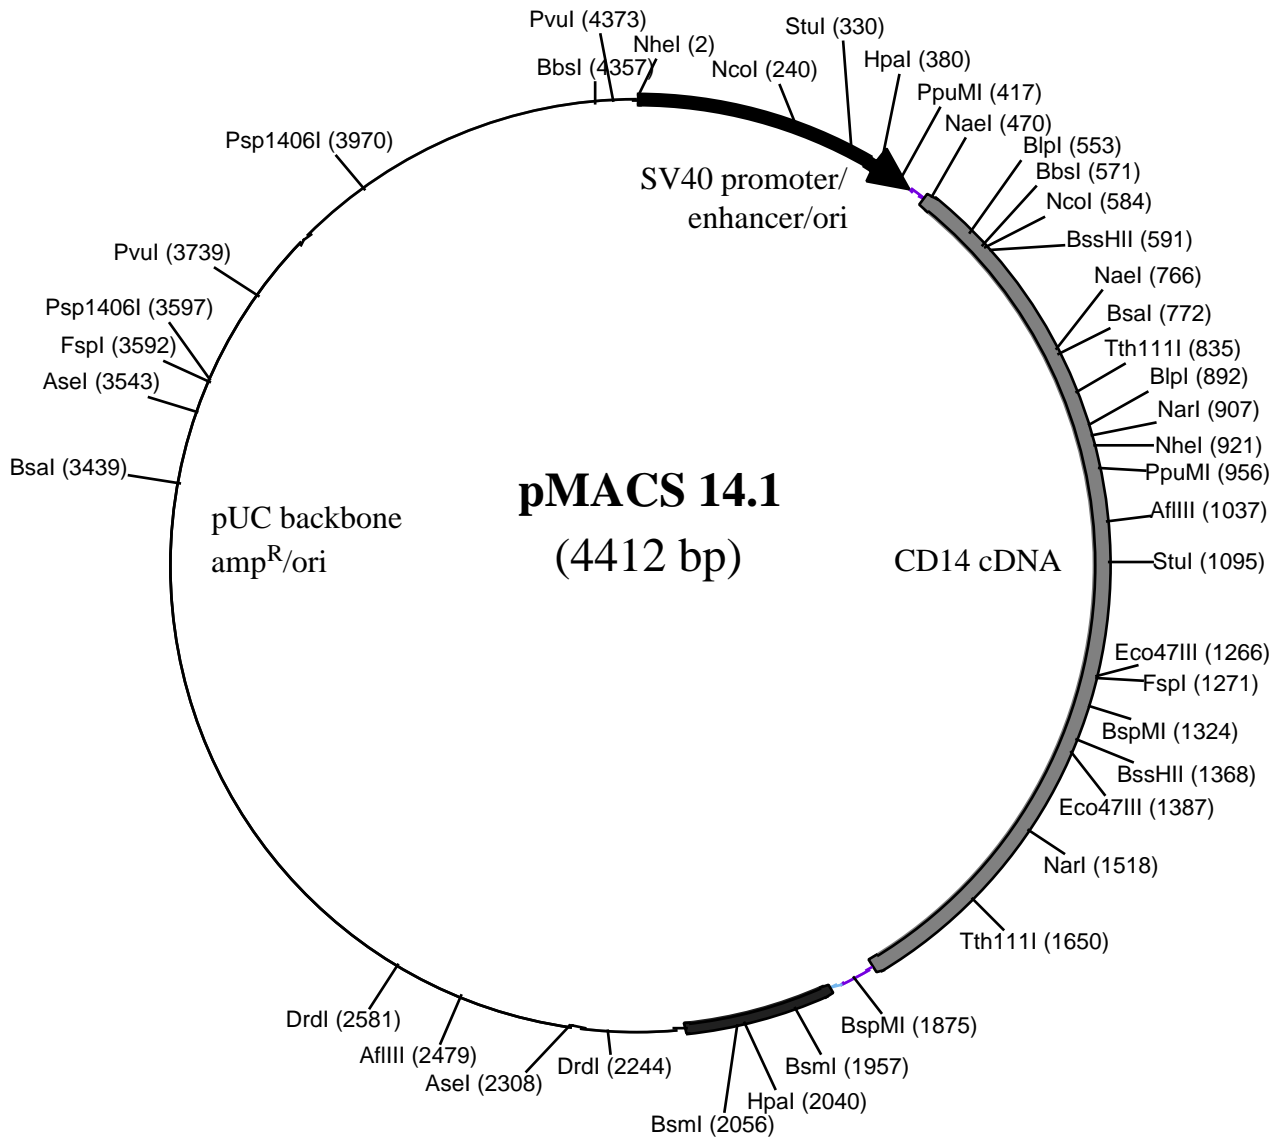

Human CD14 cDNA.

nt 1906 to nt 2148:

SV40 polyadenylation site.

nt 2149 to nt 4406 (ClaI):

pUC backbone: bacterial origin of replication and Ampicillin resistance gene.

MA007301

Note: This map shows known restriction sites.
